## About Us

CEsA is one of the oldest research centres dedicated to development studies in Portugal. It is integrated in the Centre for Research in Social Sciences and Management (CSG) research consortium of ISEG, Lisbon School of Economics and Management (ISEG/ULisboa). It also has close cooperation with both the Masters in Development and International Cooperation (MDCI) and the PhD in Development Studies (PDED) of ISEG/ULisboa.

## Lines of Research

### Economics, Development and International Cooperation

This main subject of this line of research is the study of developmental dynamics, in particular transformation pathways adopted by post-colonial societies. It encompasses various research areas, grounded on a broad economic, developmental and international cooperation perspective.

### History, cultures and identities

African Studies are a dominant area of this line of CEsA's research. The epistemological approach to this area addresses the various subject frameworks, paradigms and analytical tools inherent to human and social sciences that pertain to African legacies, knowledge and practices.

## Knowledge Production

### CEsA Repository

CEsA's bibliographic collection is available online on Universidade de Lisboa's repository and consists of more than 250 open-access publications, including:

- Working Papers
- Brief Papers
- Studies
- Book chapters
- Papers in national and international journals

Check it out →

### CEsA YouTube

CEsA's YouTube channel gathers together recordings of past seminars, conferences, webinars and films produced within the scope of the Centre's activities.
